

Community Engaged Teaching & Learning Survey

Welcome

Each year, the Office of the President requests that the Center for Service Learning and Civic Engagement report on the number of students engaged in curricular service-learning, civic engagement, and volunteer activities. In the past the reported figures have been reflective of the activities registered in the center's database. We are aware that there is significant work being done independent of the center and that has not been recorded in the center database.

The center is committed to building relationships with all units who are committed to community engaged teaching and learning, civic engagement, and student volunteerism. In addition to reporting the required information to the Office of President, we hope to gain a better understanding of the types of support resources academic units may desire to continue their work. We believe that recognizing campus efforts and reporting accomplishments are of the utmost importance. You will be able to enter multiple projects if needed.

In addition to fulfilling this campus-wide reporting requirement, the center is working to develop an annual community engaged teaching and learning index. This report will provide our campus with annual data by college and/or division, will be shared broadly, and will assist in determining what resources and supports the center may offer to sustain and advance this work in the future.

For this survey, please use these definitions

Read the questions before answering the survey

Please select the statement below that applies to you during the past semester:

- I incorporated community engaged teaching and learning into my syllabus.
- I coordinated community engagement projects for my department or college.
- I served as an advisor for a registered student organization.
- I did not participate in any community engaged teaching and learning activity this semester.

I did not participate in any community engaged teaching and learning activity this semester.

Thank you for logging in to our survey. Since you have indicated that you were not involved in any community engaged teaching and learning this past semester, please indicate your preference below:

Yes, I am interested in Community Engaged Teaching and Learning. Selecting this option will open up the CSLCE faculty resource page. <http://servicelearning.msu.edu/faculty/services-support>

No, I am not interested at this time.

How many community engaged projects did your RSO conduct?

RSO Matrix Information

	Registered Student Organization	Name of Project	Number of Students	Number of Faculty	Number of Hours	Location (options: Detroit, Flint, Grand Rapids, Greater Lansing, International, Other (Explain in narrative))
Project 1						
Project 2						
Project 3						
Project 4						
Project 5						

Please answer the following questions for each project:

Please list your community partners. If you chose Other above, please list their location here.

What is the community need being addressed?

How do you measure success for your community engagement project?

What was the community impact?

What was the impact on student learning?

Please list any awards or special recognition.

Please share your project website/social media information.

Did your project receive any media coverage? If so, please share links below:

Are you willing to share pictures? If yes, you will be contacted at a later date.

- Yes
- No

How many community engaged departmental or college level activities did you coordinate?

Department/College Project Matrix of Information

	Department/College	Name of Project	Number of Students	Number of Faculty	Number of Hours	Location (options: Detroit, Flint, Grand Rapids, Greater Lansing, International, Other (Explain in narrative))
Project 1						
Project 2						
Project 3						
Project 4						
Project 5						

Please answer the following questions for each project:

Please list your community partners:

What is the community need being addressed?

How do you measure success for your community engagement project?

What was the community impact?

What was the impact on student learning?

Please list any awards or special recognition.

Please share your project website/social media information.

Did your project receive any media coverage? If so, please share links below:

Are you willing to share pictures? If yes, you will be contacted at a later date.

- Yes
- No

How many community engaged teaching and learning courses did you teach?

Academic Matrix of Information
