

TB (Tuberculosis) Test Information

What is a TB Test?

A tuberculosis (or TB) test is a 3-part procedure to rule out that you have Tuberculosis.

1. Test is administered
2. Wait for 48-72 hours
3. Return to the doctor's office for tests reading/results.

IMPORTANT: You MUST return between 48-72 hours after the 1st visit or the test will be void.

How do I get a TB Test?

To obtain a TB Test, you have the following options:

1. MSU Olin Health Center **(MSU STUDENTS ONLY)**

- Must Schedule an appointment by calling Olin Health at 353-4660
- When you arrive for your scheduled appointment time, please go to Olin's front desk
- Make sure to you bring the 2nd page of this document with you to your appointment

IMPORTANT: If you fail to return to have the test read when scheduled, you may be charged to have the test redone.

2. Your primary care physician's office

3. Lansing Urgent Care

- 2 locations near campus
 - Near Frandor: 505 N Clippert St, Lansing, MI 48912
 - In Okemos: 2289 W. Grand River Ave, Okemos, MI 48864
- Hours: See <https://lansingurgentcare.com/hours.shtml> for up-to-date information
- Cost: There may be a cost for you to have your TB test completed.

How long is a TB Test good for?

A TB test is good for one-year from the date of the test being administered.

MSU Center for Service-Learning and Civic Engagement
